Additional copies of this form can be obtained from www.eirma.org

The **Card Security Code** provides an additional security measure to prevent card misuse within on-line transactions. For American Express cards, this is the four digit number shown above the credit card number, on the right-hand side. For other credit cards, the code is the last three digits of the number shown above the signature strip on the reverse side of the card. In the examples above, the Card Security Codes are '1234' and '567'.
